

P·T·I 911-01 Order Form

LPG Awareness for Firefighters

Because You Need To Know

Are you as prepared as possible for incidents involving propane and other Liquefied Petroleum Gases (LPGs)? Do you have the latest information and techniques at your fingertips?

The experts at the Propane Training Institute (P·T·I) are standing by to help all Canadian firefighters add to their risk assessment capabilities with the first course designed specifically for you, **911-01 LPG Awareness for Firefighters**.

This innovative new learning tool will help you and your fellow firefighters achieve your most important goals:

- **Enhancing public safety**
- **Minimizing the risk of personal injury for you, your fellow firefighters, propane industry employees, and members of the public involved in LPG-related incidents**
- **Safeguarding private and public property**
- **Dealing effectively with all aspects of LPG-related incidents, from assessing containers and transportation, to emergency response and media relations**

We Make It Convenient

Whatever the size or location of your firefighting service, the Propane Training Institute will provide you with the tools you need, when and how you need them.

- **Use your own trainer**
If your firefighting service has its own professional in-house trainer, we can provide you with our Trainer Kit. Designed by trainers for trainers, and pilot-tested with the assistance of the Calgary Fire Department, this kit presents you with the materials you need to deliver the course, all explained in clear language and an easy-to-use format.
- **Let us help**
Make use of our network of 1,000 Certified Trainers across the nation and have **911-01 LPG Awareness for Firefighters** delivered directly to you and your team. Our trainers will work with you to ensure a useful, positive training experience that makes the most of your valuable time.

We Make It Easy

We understand the many demands on your time and energy. That's why we've made it quick and easy to order **911-01 LPG Awareness for Firefighters** in one of three ways:

- **Fill in, save, and email your order form as an attachment**
Just fill in the blanks on the form below while on our website, including your credit card information¹, save this document to a file folder or your desktop, and attach it to an email addressed to info@propanegas.ca. We'll get to work right away on delivering your order.

OR

- **Fill in, print, and mail or fax your order form**
Use your keyboard to fill in the blanks below, including your payment information². This order form will then be ready to print with all of your information intact, ready for you to mail or fax (403.543.6508) to us.

OR

- **Print first, fill in later**
You can also choose to print this order form as is, for your later use. When you're ready, just fill it in using a pen and mail or fax (403.543.6508) it to us.

¹ You can use any of these ordering methods if paying by credit card. We accept Visa, MasterCard and American Express. If you are not comfortable emailing or faxing credit card information, simply indicate the type of credit card to be used and we will contact you by phone to gather the missing information once your order form is received.

² If you are paying by cheque, please mail your payment and completed form to the address below and allow 2-3 weeks for a response.

Getting What You Need

If you're ready to enhance your abilities as a firefighter to assess and handle situations involving propane and other LPGs, it's time to order **911-01 LPG Awareness for Firefighters**. Here's what you need:

- **If you have your own trainer(s)**
You will need a copy of the Trainer Kit for each of your trainers, and a copy of the Student Manual for each person taking the course.
- **If you need a P·T·I Certified Trainer**
We will put you in touch with the P·T·I Regional Business Partner serving your area for a free consultation regarding arrangements for the training as well as delivery of one Student Manual for each person taking the course.

About the Propane Gas Association of Canada

The Propane Gas Association of Canada (PGAC) is the national voice of the propane industry in Canada. As a not-for-profit organization, the PGAC supports the propane industry in the continued growth of propane usage in Canada and in its pursuit of an environmentally responsible and safe industry. The Propane Training Institute (P·T·I), the training division of the PGAC, satisfies legislated training requirements by providing training to over 22,000 students annually through its 1000 certified trainers. The LPG Emergency Response Corporation (LPGERC), PGAC's emergency response subsidiary, provides highly trained teams located across Canada to assist in the implementation of Emergency Response Assistance Plans (ERAP) required by the federal Transportation of Dangerous Goods Act for incidents involving all products classified under UN1075 – Liquefied Petroleum Gases.
