

I•F•P 100-01 SUPPLEMENT

Due to regulatory changes, we are issuing a supplement to the 100-01 French workbook.

Please review these updates before you instruct your class and ensure that each student receives a copy of this supplement along with their workbook.

Due to a recent printing, we were able to modify the 100-01 English workbook to reflect the changes. We will incorporate these updates into the 100-01 French workbook the next time we do a re-print.

The changes are as follows:

- 5.2 Robinet de service de gaz - has been replaced.
- 5.5 Utilisation de l'information gravée - has been replaced.
- 5.8.1 Quand faut-il purger? - has been replaced – new note added.
- Révision – Chapitre 5 – new questions – has been replaced.
- 6.4 Fiche Signalétique (FS) has been replaced.
- 6.5 Le transport des marchandises dangereuses (TMD) - has been replaced.

The supplement is intended to be used with the current version of 100-01 workbooks (Copyright 2002).
